## CELEBRATION OF A QUARTER CENTURY

The C. F. Sauer Concern Proposes to Have a Real Big Celebration.

The C. F. Sauer Co., the biggest manufacturers of flavoring extracts in all the country, and an establishment that Richmond is justly proud of, will on next Wednesday, celebrate their twenty-fifth anniversary as a Richmond industrial and manufacturing concern. A banquet will be the feature of the anniversary celebration, and the same will be held in the big dining hall of the manufacturing establishment.

At this banquet there will be real representatives of very many Richmond business concerns that got on to the job a quarter of a century ago, and among these will be men from tobacco manufacturing concerns, wholesale merchants, who were here twenty-five years ago, retailers that were then young in the business and other concerns that knew how Richmond did business a quarter of a century ago.

There will be a lot of up-to-dateness about this banquet, for there will be many people present who were not on the job twenty-five years ago. Among them will be Will Dabney, of the Chamber of Commerce, and he may be the leading spokesman of the occasion. And then again there may be city officials and representatives of twentieth-century banking establishments and a whole lot of wholesalers and other kinds of active business men who were probably wearing knee breeches twenty-five years ago.

The banquet will be held in the parlor and dining rooms of the most up-to-date manufacturing plant that has come to Richmond within the past half a century, and that plant is the Sauer Manufacturing shop.

**Andrew Edmund Shook's Banquet.**  
[Special to The Times-Dispatch.]  
Raleigh, N. C., October 12.—Allen Emery, aged thirty years, was probably fatally shot this morning on Belmont Street by George King, aged fifty years, in whose home he boarded. The two men quarreled at the breakfast table while Mrs. King was teasing Emery about some one with whom she was about to be in love. Emery has been operated from his wife for some time, and she is using for divorce. After breakfast King got his shotgun and fired a load of bullets into his wife at a range of about ten feet.

## FAIR LEFT GAMELY AS IT HAD COME

(Continued From First Page.)

It rained it got all they paid for, but the people dog man made few sales, and there was no confetti. As midnight approached the showmen began pulling down their booths and packing away their heterogeneous stock in trade.

Most of the shows will leave to-day. Some go to Petersburg and others to Raleigh. Still others make cross-country jumps to distant exhibitions. When darkness falls to-night the last reminder of the short-lived amusement city will have disappeared, and where once barked the speller will hoot the night owl.

While exhibits straggled through the day in a state of partial depletion, the special performances in front of the grandstand were a shade better even than during the week. Maybe it was due to a natural desire upon the part of the actors to leave behind a good impression. Anyway, C. D. Gers, one of the globe of death, took an extra turn or two inside her sphere of gold, and the band played as it never did before. And the International Fireworks Company, of New Jersey, put on an extra crew and gave the most imposing exhibition of the week. The Spanish Armada fell amidst greater thunder and with more brilliant illumination, and the inspiring American banner which blazed an official farewell sent the faithful home patriots and at peace with the world.
